

Guide to Uninstall Java Application

The trial version of the e-Submission application cannot be used for live submission. Please follow the following steps to uninstall the trial version of the e-Submission application before you download the live version.

1. Click on Start > Settings > Control Panel.

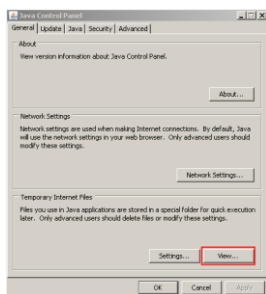

2. Look for the 'Java' icon and double click on the 'Java' icon.

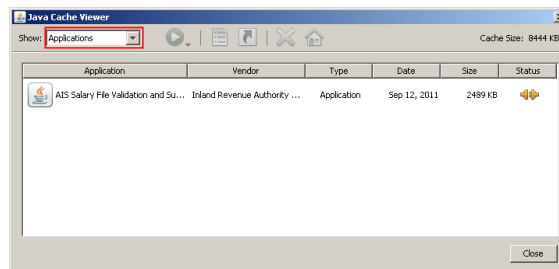

3. The Java Control Panel will be displayed.

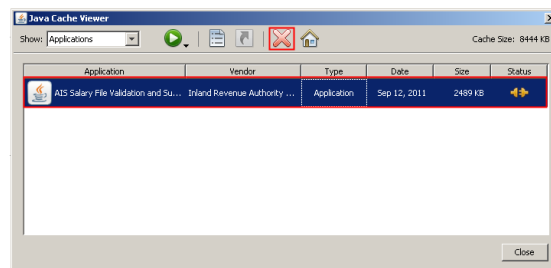

Click **View...** in the Temporary Internet Files under the General tab to launch the Java Cache Viewer.

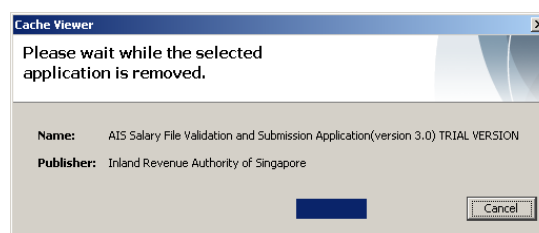

4. Select "Applications" in the combo box.

5. To remove the trial version of the e-Submission application, select the application and click on the  button.

6. Once the  button is clicked, the following dialog will appear.

7. The Java Cache Viewer will refresh and the application selected for removal will not appear. Please note that the shortcuts created on the desktop and at the Start menu will also be removed.
