**Step-by-step guide on how to combine 2 PDF files into 1 PDF file**

Step 1: Open the PDF file that you want to be at the bottom of the combined PDF file.
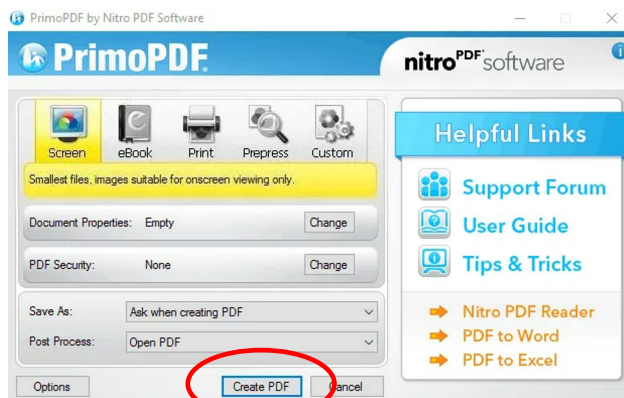

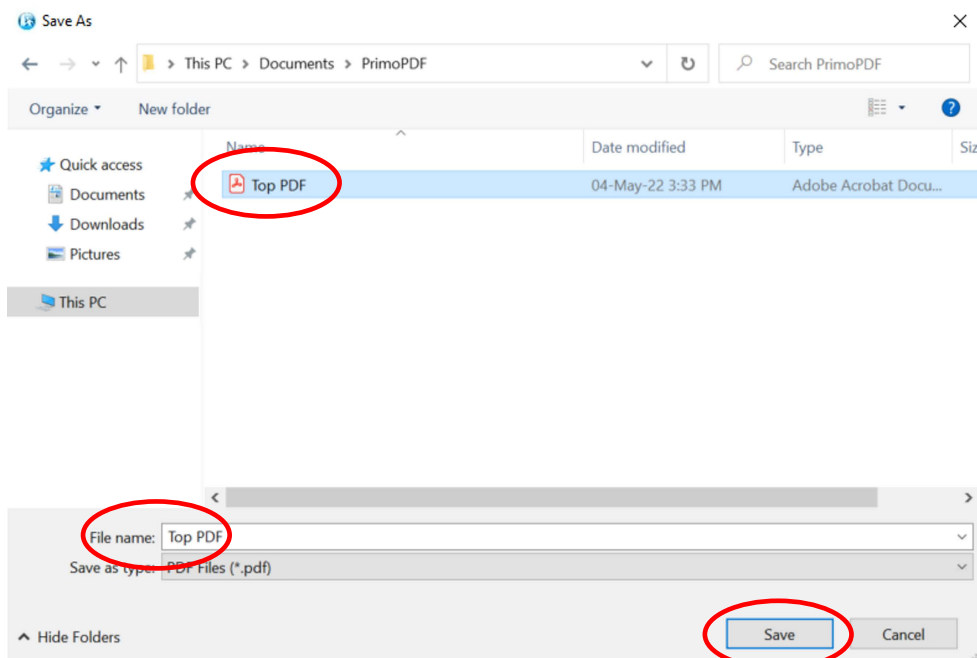

Step 2: Click on 'File' >> 'Print'.

Step 3: Select 'PrimoPDF' as the printer and click on 'Print'.

Step 4: Click on 'Create PDF'.

Step 5: In the screen below, select the PDF file that you want to be at the top of the combined PDF file and click on 'Save'. This PDF file should be of the same name as the PDF file in Step 1.

Step 6: Click on 'Append'.

Step 7: Close all the windows and open the PDF file that you want to be at the top of the combined PDF file. You have successfully combined the 2 PDF files into 1 PDF file.
